INDIANAPOLIS DIRECTORY

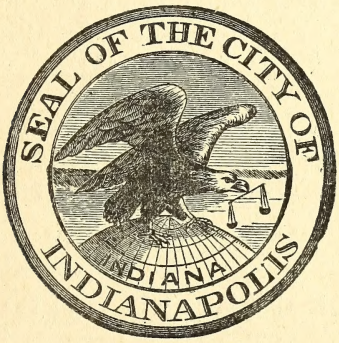
FOR 1884.

EMBRACING A COMPLETE ALPHABETICAL LIST OF BUSINESS FIRMS, PRIVATE CITIZENS, AND AN IMPROVED CITY MAP, A DIRECTORY OF THE CITY, COUNTY OFFICERS, CHURCHES AND PUBLIC SCHOOLS, BENEVOLENT, LITERARY AND OTHER ASSOCIATIONS, BANKS, INCORPORATED INSTITUTIONS, INDIANA STATE GOVERNMENT, ETC., ETC.,

TO WHICH IS ADDED A

COMPLETE CLASSIFIED BUSINESS DIRECTORY

OF INDIANAPOLIS.



INDIANAPOLIS:
COMPILED AND PUBLISHED BY R. L. POLK & CO.
CARLON & HOLLENBECK, PRINTERS AND BINDERS.
1884.

Entered according to an act of Congress, in the year 1884, by R. L. Polk & Co., in the office of the Librarian of Congress, at Washington, D. C.

INTRODUCTORY.

The Publishers take pleasure in presenting this, the twenty-ninth, volume of the Indianapolis City Directory to the public, and have endeavored to sustain the reputation previously earned for compiling a work that is as complete as a City Directory can well be made.

The population of Indianapolis, including suburbs, can safely be estimated at 105,000, and the city proper at 88,000. The present volume contains 39,459 names, an increase of 1108 over last year, which, at the low ratio of three inhabitants to one directory name, would show an increase of 3324.

As a city Indianapolis stands pre-eminently high in manufacture, which is rapidly increasing from year to year, and as a railroad center it has a world-wide reputation. These vast interests combined, together with an intelligent, energetic business community and a healthful climate, make it an exceptional point for the location of manufactures, and a delightful residence city.

The Publishers, in the compilation of this edition, have spared neither pains nor expense to make it creditable alike to themselves and the thriving city which it represents. We would call special attention to the arrangement of the classified business directory, the miscellaneous portion of the book, the street directory, and complete map of the city which accompanies the work—all of which are indispensable to the public.

Thanks are tendered the public for remunerative appreciation of the work, and we trust that this issue will meet the same favor accorded previous editions.

THE PUBLISHERS.

RATES OF POSTAGE ON FIRST-CLASS MATTER.

On letters, sealed packages, mail matter wholly or partly in writing, except book manuscripts and corrected proofs passing between authors and publishers, and except local or drop letters, or United States postal cards; all printed matter so marked as to convey any other or further information than is conveyed by the original print, except the correction of mere typographical errors; all matter otherwise chargeable with letter postage, but which is so wrapped or secured that it can be conveniently examined by postmasters without destroying the wrapper or envelope; all packages containing matter not in itself chargeable with letter postage, but in which is enclosed or concealed any letter, memorandum, or other thing chargeable with letter postage, or upon which is any writing or memorandum; all matter to which no specific rate of postage is assigned; and manuscript for publication in newspapers, magazines or periodicals, two cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is established, two cents for each half ounce or fraction thereof.

RATES OF POSTAGE ON SECOND-CLASS MATTER.

The following articles are mailable at the rate of two cents for each pound or fraction thereof: Newspapers, magazines and periodicals, exclusively in print, and regularly issued at stated periods from a known office of publication, without addition by writing, mark or sign, and addressed to regular subscribers.

A regular subscriber is a person who has actually paid, or undertaken to pay, subscription price for a newspaper, magazine or other periodical, or for whom such payment has been made, or undertaken to be made, by some other person. But in the latter case, such payment must have been made, or undertaken with the previous consent, or at the previous request of the person to whom such newspaper, magazine or periodical is sent. A person to whom any such publication is sent, without his consent or request, is not a "regular subscriber" within the meaning of the law, and if there be no evidence of prepayment on the package, double transit rates of postage must be rated up and collected on delivery.

THIRD-CLASS MATTER.

The following articles are mailable at the rate of one cent for every two ounces or fractional part thereof:

Pamphlets, occasional publications, transient newspapers, magazines, books, periodicals, hand-bills, posters, sheet music (printed), prospectuses, maps, proof sheets, regular publications designed primarily for advertising purposes or free circulation, at nominal rates, and corrected proof-sheets.

All matter of the third class, not enumerated above, is one cent for each ounce or fraction thereof.

FOURTH-CLASS MATTER.

The following articles are mailable at the rate of one cent each ounce or fraction thereof: Blank cards, card-board, and other flexible material, flexible patterns, letter envelopes and letter paper without printing thereon, merchandise and samples of merchandise, models, ornamented paper, sample cards, samples of ores, metals, minerals, seeds, cuttings, bulbs, roots, scions, drawings, plans, designs, original paintings in oil or water colors, and any other matter not included in the first, second or third classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service.

POSTAL CARDS.

The object of the postal card is to facilitate letter correspondence, and provide for the transmission through the mails, at a reduced rate of postage, of short communications, either printed or written in pencil or ink. They may, therefore, be used for orders, invitations, notices, receipts, acknowledgments, price lists, and other requirements of business and social life; and the matter desired to be conveyed may be either in writing or in print, or partially in both.

In using postal cards, be careful not to write or have anything printed on the side to be used for the address, except the address; also be careful not to paste, gum or attach anything to them. They are unmailable as postal cards when these suggestions are disregarded.

THE FOLLOWING ARTICLES ARE UNMAILABLE.

Packages containing liquids, poisons, glass, explosive chemicals, live animals, sharp-pointed instruments, sugar, or any other matter liable to deface or destroy the contents of the mail, or injure the person of anyone connected with the service. All letters upon the envelope of which, or postal cards upon which, obscene, scurrilous, or abusive epithets have been written or printed, or disloyal devices, printed or engraved, and letters and circulars concerning illegal lotteries, so-called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to deceive and defraud the public. Also, all obscene, lewd, or lascivious books, pamphlets, pictures, papers, prints or other publications of an indecent character.

FORWARDING LETTERS.

All first-class matter (letters and postal cards) may be forwarded as often as is necessary, even though they have been taken

from the postoffice; but all other classes of matter (newspapers, circulars and merchandise), must have the postage paid anew each time they are forwarded.

LETTERS RETURNED TO WRITERS.

All letters unclaimed, upon which are indorsed the names and addresses of the writers, will be returned whether a specific *request* for such return is indorsed or not—provided the original postage has been prepaid according to law.

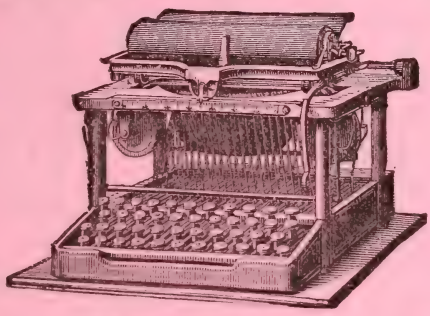
THE STANDARD

REMINGTON TYPE-WRITER



THE PERFECTED WRITING MACHINE.

THE TYPE-WRITER, as now perfected, is a desirable substitute for the Pen, in every Profession and branch of Business. It is desirable, because it does its work twice as fast as the pen, and produces it in a style as legible as print—two very important considerations to all who have much writing to do.

The Type-Writer is now extensively used—

By ***Lawyers,*** in writing Depositions, Briefs, Contracts, Agreements, etc.;

By ***Railroad Officers,*** in communicating with their subordinates and their patrons;

By ***Manufacturers*** and ***Wholesale Merchants,*** in doing their Letter-writing and making out invoices of goods, in a style that their customers can read with satisfaction and confidence of being right;

By ***Insurance Agents,*** in their correspondence with local agents;

By ***Clergymen*** and ***Lecturers,*** in putting their Sermons and Addresses in good shape for correct and fluent delivery;

By ***Physicians,*** in making legible prescriptions, and in keeping a record of important cases;

By ***Teachers*** and ***Professors of Colleges,*** in preparing Examination Exercises, Programs and Graduating Essays.

☞ All Orders for Type-Writer Supplies Promptly Filled.

Dear Sir — We take this method of calling your attention to the superior quality of our wood and photo Engraving — Since we started in Indianapolis our business has grown to such proportions that we have found it necessary to make a separate department of our Wood Engraving. This we have placed under the special management of Mr. Chas Nicoli, one of the finest engravers in the West — and with the special machinery we have added, we are now able to guarantee entire satisfaction in point of time, price, and quality of our work. It will more than pay you to get our estimate.

Our patent arrangements enable us to give our personal attention to our patent business. Every inventor should send at once for our No. 7. Hand-book — free.

Respectfully Yours

Patents.

Believing myself qualified, by a long and varied experience, to properly attend to any of the various branches of my profession, I respectfully invite those who desire to procure Letters Patent, which will fully protect their inventions, to investigate my ability to satisfy their wants.

Reissues.

Since the late decisions of the Supreme Court, virtually rendering invalid a large proportion of Reissued Patents, it is more than ever important that original applications be prepared, with the utmost care, as Reissues can not now be relied on to protect Patent property.

PATENT BUSINESS EXCLUSIVELY.

ALL MATTERS STRICTLY CONFIDENTIAL.

L. D. Bradford.

MECHANICAL KNOWLEDGE.

For nearly ten years, previous to entering my present profession, I devoted my attention mostly to mechanical and kindred subjects, having been engaged for a considerable portion of that time in setting up and running machinery. I have therefore a good knowledge of MECHANICS, as well as Patent Law, and that knowledge is practical, as well as theoretical. This enables me to thoroughly understand and appreciate new inventions when laid before me.

Miscellaneous.

Investigations made to determine the advisability of contemplated litigation of Patent Claims, and advice given in relation thereto. Will appear as Expert in suits for infringement of Patent rights, Assignments, Licenses and Contracts relatiug to Patents prepared and recorded. Rejected and forfeited cases taken up and prosecuted to final result, and business generally, relating to Patents, given careful attention.
